large and small crystals,
and embers.

VISION E-LINE ELECTRIC FIRES AND SUITES

The VEL90 is part of a new range of contemporary electric fires brought to you by the Vision brand. It comes in panoramic as standard but can be transformed to a corner or front facing appliance with the clever use of a conversion kit (included). The new collection has a range of exquisitely designed suites available in a variety of materials designed to suit every interior.

The appliance can also be installed with a fabricated chimney to give customers a truly trimless finish. Alternatively they can be installed against a flat wall without the need for a chimney or any additional building work when accompanied by a suite.

KEY FEATURES

- Panoramic as standard
Comes with conversion kit to convert to a corner or front facing fire
- IR remote control operated
- Standard 2 year warranty
- Heat output range: 0.75kW - 1.5kW output
- Fully ERP compliant
- Thermostatic control option
- Timer operation function
- LED flame effect
- Wall mountable with supplied bracket
- Hi definition log set
- Decorative fuel retaining bar
- Modulating LED under and above fuel bed

For those looking for a minimalist look, there is a choice of corner, front facing and panoramic options.

Shown as supplied for front opening arrangement with side panels in position. Either or both side panels can be removed to give a 2 sided or 3 sided arrangement

Shown with both side panels removed to give greater design opportunities of installation

MOOD LIGHTING (OPTIONAL)

Create the right mood in your room by lighting the area surrounding your fire. Optional lengths of LED lighting strips are available that plug into your fire. The lights are controlled from the fires handset and offer you a palette of thirteen glorious colours that can be set separately to the flame and fuel bed effects.

Optional mood strips – create your own ambience.
